

JANUS et Cie®

BEYOND TOPIARY

Patricia Urquiola's New Collection Redefines Cool, Effortless Style

Deep, rich hues and unique forms define the Anatra collection, a masterfully produced ensemble that celebrates texture with generous, embracing pieces. Designed by the renowned architecture and design icon Patricia Urquiola, this sophisticated, infinitely livable dining and lounge collection is foremost a celebration of craft and texture.

Anatra was born from my desire to play and experiment with the scale of weaving, a technique that is very distinctive of JANUS et Cie, says Urquiola. I wanted to try and find the perfect balance between lightness and durability, to translate the concept of comfort into generous and embracing seating solutions.

Anatra's powder coated aluminum frames are enveloped by intricately woven rope to yield a seat that is just as durable as it is intriguing. The collection's sleek tables are topped with cool, textured Alabama ceramic or classic Carrara marble.

With smart construction and luxurious design, Anatra brings comfort and style to any environment, indoors or out.
