

JANUS et Cie®

BEYOND TOPIARY

Gina Recamier, Designed by Piero Lissoni, Receives 2019 Red Dot Award

Created exclusively for JANUS et Cie by the renowned Italian design icon Piero Lissoni, the Gina collection is characterized by sensuous contours and sleek lines, precisely executed in harmonious proportion. We are delighted to share that the collection's stunning Gina Recamier recently received the 2019 Red Dot Award for outstanding design.

Thoughtfully designed and flawlessly shaped, Gina brings an unabashed romanticism to contemporary living. Red Dot, one of the world's largest and most prestigious design competitions, received over 5,500 product submissions this year. The Gina Recamier will be featured at a special exhibition at the Red Dot Design Museum in Essen, Germany in July.
