

JANUS et Cie®

## BEYOND TOPIARY

### A Record Five JANUS et Cie Products Take Home IIDA/HD Product Design Awards

Honoring innovation, functionality, and aesthetic achievements in product design, the IIDA/HD Product Design Awards are held each year during the Hospitality Design Exposition and Conference (HD Expo) in Las Vegas. An esteemed jury of top industry leaders evaluates hundreds of entries to select the products that achieve extraordinary performance, creativity, and style. This year, we are delighted to share that JANUS et Cie has been honored with five IIDA/HD Product Design Awards!

For the category of Accessories or Specialties: Artwork, Signage or Accent Pieces, the curvy, contemporary Bell Side Table was chosen. Another distinctively modern side table, Cone II, took home the award for best Individual Caseload and Freestanding Furniture.

Among outdoor seating selections, the Bon Vivant Poufs was a winner, as well as the Pivot Swivel Daybed. The Anatra Armchair, designed by Patricia Urquiola exclusively for JANUS et Cie, obtained the award for Seating - Group Dining. With an extraordinarily unique silhouette and intricate handwoven rope details, the Anatra Armchair is a versatile choice for style-driven, dynamic environments.
